

## THE SKANDALON PROGRAMS

The Skandalon Programs are the original outreach of the Valanga di Vita Company, a non-profit educational organization devoted to public service. All online classes are based on a 16 week trimester schedule, with the suggestion that participants begin in September, January or May. Classes are free and open to anyone and you go at your own pace, but we do recommend not rushing through.

THE PARAKLETE PROJECT is an investigation into a philosophical school called phenomenology which is based on real experience instead of ideas.

LEON'S LIST, which contains the original skandalon material, is a series of courses relating to happiness theory which investigate the root causes of mental diseases that are so common today.

MATILDA'S MENU, relates specifically to power and vulnerability, especially in the area of sexual relations, an area which is very delicate and difficult to discuss.

URIEE'S UNDERSTANDING is an investigation into mystical phenomena; especially angels.
