

V IS NOT FOR VENDETTA.  
V IS FOR VALANGA.

A volcano is a good example of pure energy that erupts onto the earth. A volcanic eruption is quite a sight to see: awesome and terrible.

Human energy is similar to a volcano: it is quite impressive. Like volcanic energy, human energy often expresses itself in a violent way. It can be and often is used to strike back in vengeance at those who have caused us to suffer, to somehow seek a vendetta, or to resort to reaction and rebellion, which invariably ends up hurting innocent people in the process and being destructive to life.

However, there is an alternative. Our energy could be used for a good purpose, which is creative rather than destructive. That purpose would be to minister works of mercy to the ones who hurt us by figuring out why they are so violent and vengeful, and addressing the problem from there. This sort of volcano would be volcanic goodness, creating a valanga di vita: a Landslide of Life.

At the same time, the members of this mission, the victims who are trying to respond to their persecutors in a positive way, must be ministered to, and given a way to live free from violence. For, the mission will never be carried out if the victims are simply silent martyrs who say nothing. The message of mercy needs to be gotten across somehow. It needs to be articulated accurately, however challenging frustrating, and frightening that may be.

**THE VALANGA  
DI VITA  
COMPANY, INC.**  
about our company

A MISSION OF MERCY; A  
METHOD OF MANAGEMENT

THE NECESSITY OF SAFETY FOR  
THE MEMBERS

THE DOUBLE U COMPANIES

L.L.C. is the Guardian and Trustee of the members of the Valanga di Vita. The victims of violence who founded the Valanga (anonymously for safety reasons) are every bit as important if not more important than the perpetrators, because while the perpetrators are open and obvious and demand attention, their victims are so often hidden and do not receive any assistance.

We look upon the Double U Companies as being created by angels to protect and foster those who are carrying out the mission of the Valanga. For yes, we are sent to heal our tormentors who are screeching and breaking windows and demanding our attention, but also we need to love ourselves. Because our tormentors surely will not do this.
